

T223AC

5R55N - 5R55W - 5R55S

**Jaguar-Lincoln LS-Explorer-Mountaineer-Thunderbird
Torque converter alignment tool**

No more vibration complaints.
No more premature converter, bushing, and/or pump failure.

From the first time to well beyond the hundredth, this tough tool aligns *exactly*.

Three Unique Features:

- 1)** The **T223AC** incorporates a durable DuPont® Delrin™ bushing that maintains the **snug** fit while not galling; slightly tapered, easing installation and removal.
- 2)** Precision machined to exacting specifications, it features access holes to allow proper torque sequence with the tool installed.
- 3)** Tool is longer at one end to fit into the case starter pocket for a non-spin final torque!

Feel confident knowing it's done right.

Answering challenges with profitable solutions.

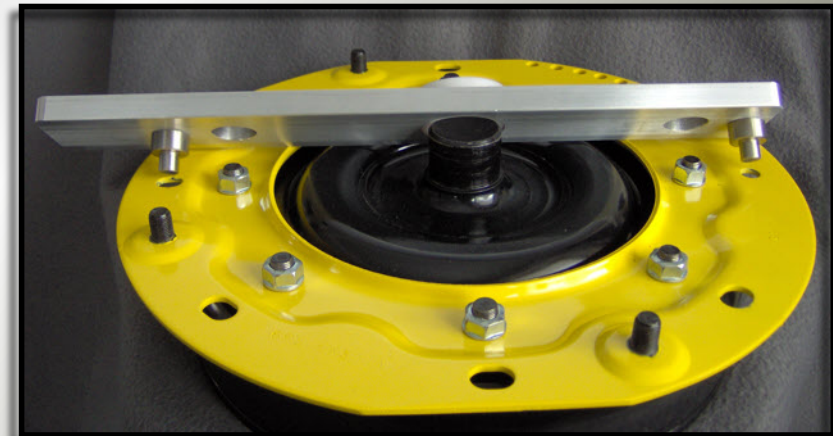

ADAPT-A-CASE

▲ Note the oval engraving on the left of tool and round to the right

▲ Engraving matches shapes of alignment holes. No guessing.
