

NEW PRODUCT!

Announcement Number: S03192501

6L80 Oversize AFL Valve

Designed for builder preference and high-mileage reliability

We've expanded our proven AFL valve lineup for GM 6L80 transmissions by offering a new oversize valve and dedicated tooling solution. This oversize AFL valve is specifically engineered for high-mileage valve bodies or for builders who prefer oversizing.

PART NUMBER: 6L80-AFL-TK

HSS Reamer with Guides

For use with 6L80-AFL-OS

Features and benefits:

- No expensive holding fixture required
- Reusable USA-made HSS reamer with guides
- Works with any regular handheld drill

Two guides to cover casting variances

Try to insert the large guide (with ID groove) first into the AFL valve bore. If it doesn't fit, use the small guide.

Large guide with ID groove

Small guide without ID groove

PART NUMBER: 6L80-AFL-OS

Oversized AFL Valve

Fits 2006-on 6L45, 6L50, 6L80, 6L90

Corrects, Prevents, Reduces:

- Solenoid performance codes
- Harsh, soft or flaring shifts
- Wrong gear starts
- Inadequate line pressure
- Burnt frictions

**ENGINEERED FOR PERFORMANCE.
